### **BLANCO IS WORRIED**

He Wishes to Disarm All Spanish Volunteers.

IS IN DOUBT JUST HOW TO DO IT

Germany to Send Warships to Havana. Spanisrds Still Shooting Prisoners of War-Insurgents Cause a Panic In a Cavalry Troop.

HAVANA, via Key West, Jan. 20 .-How to disarm the volunteers is now the problem which confronts General Blanco. Having heard of their intertion to send him back to Spain, as they did Dulce, and knowing that he could not depend on them, he brought during Saturday night 10,000 regulars into Havana, as a renewal of the riots was predicted for Sunday. From early in the morning Sunday entire squadrons of civil guards, regulars and orden publico were constantly marching through different parts of the city. The display of so much force had the desired effect upon the volunteers, who did not make the slightest riotous demonstration, as they had openly announced they would do. Since then the city has

To avoid future trouble General Blanco, by the advice of the Autonomist government, is determined to disarm the volunteers, but he is afraid to begin this delicate work. Blanco's first step will be, it is said, to send to the field all the young men who became soldiers in Spain and who are now serving here as volunteers to escape military service in the field. They constitute nearly 50 per cent of the volunteer forces. Blanco is between two fires, as with the volunteers armed autonomy is not possibie, and at the same time their disarming may precipitate a revolt.

Of the wounded during the last riots only one has died so far, a milkman, who, finding himself surrounded by a crowd shouting "Viva Weyler!" refused to join in because he said Weyler had taken all his cows. He was accordingly clubbed so severely that he died later.

A bomb was placed at Esquina Tejas. Cerro, in Havana. It exploded with great noise, but no one was hurt. It is said that young Francisco Guzman, son of Deputy Santos Guzman, placed it. He, like his father, favors the volunteers and ultra-Conservatives.

It is announced in Havana that Emperor William is going to make a naval demonstration in Havana harbor in order to inspire the volunteers with re-The Germans in Havana form the more numerous and wealthy foreign colony. Three German warships are expected in Havana next week, and another will remain near Cuban waters.

The relief sent to the concentrados by the American people is greatly incens-0,936 ing the rabid Spaniards here. They believe it an unpatriotic act to help the poor, starving pacificos, first, because the concentration was ordered by General Weyler and, second, because the help for them comes from the United States. Not a single Spanish store gives them anything. Not a cent has come to them from Spain, and no collection has been taken here for their cause, although collection are constantly being made for other causes.

The war is being waged by the Spanizrds as ruthlessly as ever. The prisoners of war are shot as in the days of Weyler. The raids on the Cuban hospitals are a matter of every day occurrence. At Guanamor, Santa Clara, a Cuban hospital was raided a few days ago and nine sick Cuban soldiers were assassinated. In Havana province the Cubans have resolved to send their sick and wounded to the east, as their lives are in great danger in the hospitals here, which are constantly assailed by the Spaniards.

The insurgents have raided Jaruco this province, and without firing a shot carried away the horses of the Spanish cavalry squadron, whose members fled at the sight of the insurgents and took shelter in the civil headquarters.

THE CAMDEN SCANDAL.

Bar Association Suid to Find Ground Per Bribert Charges In Shaw Case.

CAMDEN, N. J., Jan. 20.-The Camden County Bar association held a meeting in relation to the charges of embracery made in connection with the recent arraignment of Eli Shaw for the murder of his grandmother, which proceedings ended in a mistrial, ordered by Judge Garrison. At the meeting of the Bar association last week a committee was appointed to learn from Judge Garrison the actual reasons for ordering the mistrial.

That committee reported to the association at this meeting, and while every one present was pledged to secrecy, it is said that the report of the committee bore out the charges and recommended an investigation. In pursuance of this, the following committee was appointed to take the matter in charge: Ex-Judge David J. Pancoast, Lewis Starr, Howard M. Cooper and Samuel W. Belden. Another meeting of the Bar association will be held within two weeks. Attorney General Grey was chairman of the meeting.

In connection with the charges resulting from the mistrial, it is said that the grand jury will take action at once and that Sheriff Baird will have a public announcement to make concerning the charges.

### NEW NAVAL SCANDAL

Brooklyn Navy Yard Officers Are Involved.

FRAUDULENT PRACTICES CHARGED.

### Merchants on an Understanding That They Would Refund Tem Per Cent of the Price.

WASHINGTON, Jan. 20.—It is reported that an investigation of another scandal in the Brooklyn navy yard will commence at once. Under orders issued by Secretary Long a court of inquiry will convene to determine upon whom rests the responsibility for alleged questionable practices which have prevailed for several years in the marine barracks. The court will be composed of Captain Merrill Miller, as president and member, and Lieutenant Commander J. D. J. Kelley, as re-

The matter was first brought to the attention of the department by a Brooklyn merchant named Wallace, who charged that the officers were guilty of fraudulent practices in entering into contracts for supplies. The department directed an investigation by an officer in whom it had confidence, and it is understood that in his report he substantiates the merchant's charges. From what can be learned the charges are of such a grave character that there is a possibility of court martials for both officers and enlisted men resulting from the investigation.

It appears that the charges center around the methods pursued by the marine barracks in making contracts for supplies. For instance, if a lawn mower were in the account. Mr. Wallace charged, an enlisted man. acting as clerk, would go to the favored merchant and inform him that arrangements would be made whereby he could get the contract provided he would engage to give in return 10 per cent of the contract price.

The clerk would then invite the merchant to bid on the lawn mower and would send similar invitations to two of his employees. The merchant would bid an excessive price on the lawn mower, but the clerks would bid higher, and he, being the lowest bidder, would consequently be awarded the contract. Lieutenant Colonel J. H. Higbee is commandant of the barracks. It is alleged that the practices extend over several years and that many enlisted men concerned in it bave been discharged-

Another matter brought to the attention of the department was that of an officer in the barracks who, it is alleged, contracted for three stoves for the barracks, but instead of being supplied with the stoves was furnished with a grate. All the papers in the matter have been referred to Captain Miller and Lieutenant Commander tapped her smartly on the arm with

### Bill Drawn Up Providing For Appelal

ALBANY, Jan. 20. - In accordance with the recommendations of Superintendent of Rublic Works Aldridge and Governor Black for an investigation into the expenditures for canal improvements, the assembly ways and means committee has drawn up a bill on the subject. The bill provides that the governor, within 20 days after it takes effect, shall appoint not less than seven citizens of the state to constitute a canal commission. The commission shall serve without pay, but shall be entitled to actual and necessary expenses incurred in the performance of its duty.

The commission shall report concerning the work already done in connection with the deepening of the Erie, Champlain and Oswego canals, the contracts made for such improvements and whether they were properly made, the amount of money actually expended and whether these expenditures were proper, the proportion of the improvement included in contracts aiready made, the proportions of either canal not included in a contract, the amount which will be required, with the plans and specifications of the superintendent of public works and the state engineer and any other matters that the commissioners consider of public interest.

The commissioners shall proceed with all convenient speed and report in writing to the governor their opinion on or before June 1, 1898, and the governor shall transmit such report to the legislature. The governor, upon applicationof the commission, may extend the time for making its report, but not beyond July 1. 1898. The commission may require the attendance of witnesses and. for purposes of investigation, is possessed of all the powers conferred upon a committee of the legislature by the legislative law or upon a committee under the code of civil procedure. The commission may employ counsel, engineers and other necessary assistants. Ten thousands dollars is appropriated to carry on the investigation.

### MINISTER TO SWEDEN.

A Maine Man Chosen for the Post by President McKinley.

W. W. Thomas, Jr., the recently appointed minister to Sweden, comes from an old Portland family, and for generations back his people have been interested in the development and government of Maine. The new minister to Sweden was born in Portland in 1839, and was educated in the public schools of that city and in Bowdoin college. where he was graduated with the honors of his class in 1860. Mr. Thomas' connection with the state department began when be was only 23 years old, as United States hearer of dispatches. Secretary Seward having selected him

WILLIAM W. THOMAS United States Minister to Sweden ) to carry a treaty to Turkey While he was still in the Ottoman empire Mr Thomas was appointed to the vice consulate at Constantinople, then acting consul at Galatz, in the principality of Moldavia, and finally named as one of the thirty war consuls of the United tates, appointed by President Lincoln, and sent to Gothenberg, Sweden. Mr. Thomas remained in Sweden three years, mastering the language and studying the character of the people. In 1890 he went to Sweden, recruited a colony of 51 picked Swedes, sailed with them across the ocean, led them up the St. John river, sharing their hardships and privations as though he were one of their number, and founded a colony in the forests of Maine which has now grown rich and prosperous, and numbers 3.000 souls,

"The story of New Sneden," said Mr. Thomas, in an address to his "children in the wood," as he affectionately (alls them, "has no parallel in New England since the United States became a nation. This Swedish settlement is the only successful agricultural colony founded with foreigners from over the ocean in New England since the revo-Intionary war, and surely in all America there is no agricultural settlement so young as ours that surpasses our model colony in progress and prosperity."

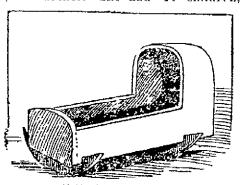

### RARE INDIANA CRADLE

fore Than Forty Bables Have Been Rocked to Sleep in It.

Valparaiso, Ind., has a cradle yet in ictual use in the home of Rev. John L. andt which is 106 years old. In this interesting nursery fixture more than 40 babies have been rocked to sleep.

In it was rocked in his infancy Morlecui Hardesty, the first white child born in Indianapolis. The cradle came from Virginia, and was handed down to the Brandt family by the grandmother of Mis. John L. Brandt, wife of the pastor of the Christian tabernacle, of Valparaiso,

days when cradles were hewn from a log. It was cut from one solid piece. "xcept that the two rockers were morused in and pegged on with wooden pigs. The beadpiece, as shown in the picture, was intended as a head rest for the occupant, and for the spread to rest on. The cradle is five feet eight inches in length. By reason of its continuous service it has been worn very smooth, and its fine polish causes it to resemble ebony rather than fine-grained black mekory wood,

was an effort on the part of the Indiana commission to secure this cradle for an exhibit in the Indiana building, but Mrs. Brandt would not consent to part with it, fearing that by some accident it might be damaged or lost. #### THE CRETAN FLAG.

Big Black Cross on a White and Little White Cross on a Bine Ground. The number of countries having national flags, their number is now more than 100-is to be added Crete, the patriotic Cretans believing that the selection of a flag should precede rather than follow autonomy. The formal acceptance of the Cretan flag was made at the Monastery of Arkadi, on the scene of the stand made by the patriotic Cretans against the Turkish soldiery in the revolt of 1866.

The Cretan flag is to show a black cross upon a white ground, symbolic "of the mourning of Crete for the continued postponement of her national aspirations." White and black on a flag is not an approved combination, except among pirates, and for that reason the Cretan flug, at some sacrifice of symmetry, has been further embellished by a second and smaller cross in the left-hand upper corner, a white cross on a blue ground the Greek colors The portion of the flag occupied by the Greek colors is symbolic of the hope of nitimate consolidation of Crete with

COMMENCING MONDAY,

AN OLD ERIE TICKET.

No 13 of the First Series Issued From New York to Belaware, Now Port Jeryls.

From the Post Jervis Gazette.

We were shown Wednesday a very interesting and valuable relic by Dr. J. J. Mills, which had been presented to him

by President George Schoonover. It was one of the first series of tickets ever issued by the New York and Erie Railroad, from New York to Delaware, which latter was then the name of the station at Port Jervis fifty years ago. The number of the ticket is 13, and is signed "H. Fitch, Manager." This ticket was in the possession of the late Hon-Franklin K. Broadhead for twenty years, and from him passed to Joseph D. Jones, who kept it fifteen years. Its next owner was Mr. Schoonover, who has had possession of it for ten years, It was recently photographed in New York city for the Ene Co. officials who would gladly have purchased it of Mr. Schoonover and paid a liberal price for it.

### SENT OUT MANY SOLDIERS.

#### The War Record of the South Woods Section of Hancock. From the Downsville News.

In the section known as the South Woods, Hancock, when the civil war broke out, within a radius of two miles lived thirty families that sent thirty-five soldiers into the Union armies. Seven of these were Goulds. It is claimed that the community was represented on more battlefields than any other of equal size in the land. Of the thirty-five soldiers three were killed in battle, six were wounded, six died of disease and one was drowned. The wounded all recovered and returned home. But one of the thirty-five had anything but a clean soldier's record,

### Have Been Married Sixty-two Years.

Edward Groom, aged ninety, and Martha Groom, his wife, aged ninetythree, of Mount Holly, N. Y., issued an invitation to their friends and relatives to attend a birthday party given for Mr. Groom on Saturday, and among those who responded were seven brothers and sisters of Mrs. Groom, whose combined ages aggregate 591 years. The old folks enjoy excellent health, and have lived all their lives in Mount Holly. They have been married sixty-two years and have lived in one house forty-four years.

### MOUNT SALEM.

#### A Surprise Party-Coing to the Klondike-Personal and Local Notes. Correspondence of ARGUS and MERCURY.

-Edward Stoll, of near Mount Salem, had a complete surprise, Friday evening, when quite a number of his friends walked in upon him about 8 o'clock. His wife, who has heretolore expressed a dislike for surprise parties, was in the secret, but Mr. Stoll besought her to make the best of it now that they were all there and not be angry, which soon set matters right. The party was a social success, all being louth to leave the hospitable roof until the hours had sped well into Saturday morning.

-Mort Elston, formerly of this place, but now in California, writes that he was to start for Alaska and the Klondike gold fields, Jan. 18th. He will be one of a party of six who have all pledged themselves to stand by one another. Mort has the right material in him to bring back some pretty good sized nuggets.

#### A GREAT INSURANCE COMPANY. The Pine Showing Made by the New York Life in Its Amnual Statement.

The fifty-third annual statement of the Now York Life Insurance Company, printed in another column, gives interesting details of the business of 1897, a summary of which was published on the first day of the new year. The items of income from premiums and interest, and the payments to policy holders in death claims, endowments, annuities, divideuds, and cash surrender values, will give an idea of the scope and significance of the company's activity. No corporations in the country, except the largest railroads, even approach the great life companies in the magnitude of their operations, and none are more closely connected with the well-being of the people. Life insurance is the best form of socialism extant-a system which provides for the needs of all through the love of each for his own. In the New York Life over 330,000 persons are thus banded together, under contracts calling for \$875,000,000 at maturity, over \$200,000,000 of which is already in hand. It is about six years since President McCall assumed the direction of this great company, and his administration has been marked by great energy in securing new business, by the issue of an unrestricted policy combining unusual privileges to the insured, and by the utmost frankness in the publicity of details. The practical adoption of a three cent. standard of reserve, on all policies, is significant of the conservatism of Mr. McCall's management. The company's invested funds will earn just as much as before, but this change puts it in a position to meet, without danger, such further reductions in the interest rate as may tal place during the next generation.

The company is ably represented in this city by W. Thacher Fish.

### Summer Hotel for New Paltz.

New York parties, said to he largely interested in the brewing business, have practically closed a bargain for the purchase, of John C. Brodhead, of forty acres of land in New Paltz, along the Highland turnpike, and propose to spend \$200,000 in building a summer hotel and laying out attractive grounds.

### Successful Local Insurance Company.

The Delhi Insurance Company, a mutual concern, paid \$826.40 in losses, last year. Its heaviest loss, \$751, was for a barn struck by lightning .- The company has 356 policies in force, insuring \$671,-685. The cost of insurance was twelve and a half cents on each \$100, about half the rate in stock companies.

### COMMON SENSE CURE.

PYRAMID PILE CURE CURES PILES PERMANENTLY BY CURING THE CAUSE.

#### Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately-fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur during sur. gial treatment, often causing death. Piles are simple in the beginning and

easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely-There is only one remedy that will do it -Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound healthy condition. The cure is thorough and permanent.

Here is a voluntary and unsolicited

testimony we have lately received: Mrs. M. C. Hinkly, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years; the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a com-

### What Do the Children Drink?

Don't give them tea or coffee. Have you tried the new, food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more GRAIN-O you give the children the more health you distribute through their systems. GRAIN-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about one-fourth as much. All grocers sell it. Fifteen and twenty-five

- The Republicau machine in Delaware county has demonstrated its power. Its candidate for postmaster at Hancock was William H. Hall and he had been duly endorsed and recommend by the county committee, but while the committee was waiting in serene confidence for the appointment to be made. some outside Republicans got the President's ear and induced him to appoint their candidate, Titus. Then the committee got to its feet, put in some fine work and convinced the President that the welfare and prosperity of the country | the Brazilian ironclade Deodaro and depended on the turning down of Titus | Floriano, constructing in France. and allowing Hall to handle Hancock's mail. How well they did their work is shown by the fact that when a nomination for the Hancock office was sent to the Senate, last week, it bore the name

The committees of the "old gang" and the "kickers," which have been conferring in the interest of Republican barmony, are making haste slowly. The intest proposition submitted by the "kickers,"-not to the committee but to the big bosses, is a daisy. It recites that inasmuch as the "old gang" has all the offices, elective and appointive, it is only | Frank 4. Mundy Bought the Fast Avefitting recognition of the independents (the flop-over of the recent election is cited to show their numerical strength) to give them the post office. It this is done the machine will be permitted to noon. name the candidate for Senator, next fall, and the independents will pledge themselves to support the candidate. This looks so fair and reasonable that we are at a loss to see why it should have made the machine men so "tearing mad" and why they should cite it as proof that the "kickers" don't want harmony.

Elmira's Board of Education was re cently brought face to face with the ques" tion of corporal punishment in the schools. It had not the nerve to abolish the rod as a relic of barbarism that has no place in the educational system of the closing years of the maeteenth century, for it feared that obstreperous youths, if they knew that they enjoyed immunity from physical punishment, would take advantage of the situation, and therefore, in a very canny way, the Board practicalty abolished the rod but still lett it, a vague and shadowy spectre, which may be invoked in case of dire necessity. It is the largest single property near the This has been done by providing that the | centre of town, and m many respects the parent or guardian of the pupil shall be consulted before corporal punishment can be inflicted which is equivalent to Received a Good Appointment. providing that no such punishment will be inflicted. The clust evil of the rod as an aid to education lies in its use in inflicting summary pumshments the number and severity of which depends not so much on the unruliness of the pupil as on the murability or anger of the teacher. The necessity of asking the parent's consent before inflicting a flogging will give even the pepperiest and most vindictitive teachers a chance to cool off and after that the pupil is safe from as-Fault.

PRISONS' COMMISSION REPORT.

Rapid Growth of the State Account System - Important Recommenda-

BY ASSOCIATED PRESS.

ALBANY, Jan. 20,-The third annual eport of the Prisons' Commission shows that the total number of prisoners is 13,270. The total merchandise sales of the three State prisons for the first eleven months were \$194,014. During the months of August, September, October and November the sales amounted to \$134,023, showing rapid progress of the State Account system.

Among the recommendations made is one evidently aimed at the Elmira Reformatory, to require the courts to fix the maximum term when sentencing to the Reformatory. Another recommendation is for a central prison for executions.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

VICTORY FOR MIDDLETOWN.

The 5th Company's Team Defeated by the 24th at Wednesday's Night's Same of Base Sall at the Armory.

The game of indoor base bull between the 24th and 5th Separate Companies. at the Armory, Wednesday night, attracted a large crowd of spectators and proved to be one of the most interesting coutests ever played in the Armory. The visitors were a fine looking, athletic body of men and in the preliminary practice their work was of such a high order that many of the spectators thought they would have little trouble in "wiping the floor" with the light weight players of the 24th.

They started the game with a rush, each player hitting the ball hard and a run was scored before the home team could dispose of the necessary three men.

The men of the 5th had no difficulty in retiring the 24th players in the next two innings and it looked for a while as if it might be a one-sided contest. By the aid of several glaring errors the 24th scored three rans in the third inning and from that time on managed to get aman home in nearly every inning.

In the last half of the seventh inning the score stood 7 to 3 in favor of the home team. The 5th had three men on bases, when Grogan hit the ball a mighty whack. It struck a raiter over the gallery and bounded into one of the wire cages protecting the chandeliers. Under the rules but one base was allowed when the ball fell into a net, and thus the opportunity to tie the score was lost, for but two men reached home before the side was retired. Neither side scored again, the game ending with the score standing 7 to 5.

Features of the game included "Sam" Gausman's superb base running in the third inning, when the first run was scored for the 24th; E. Grogan's high hit ball, which landed in the gallery and allowed a home run, and Gould's pretty double plays, assisted by Shafer, in the sixth and eighth innings.

There was no wrangling or kicking over the decisions of the ampires, and the crowd frequently gave vent to its appreciation of the fairness of the visiting umpire, Corporal Adam Faulkner, by hearty applause.

After the game the visitors were entertained at lunch at Rowley's restaurant.

Recorde: Barnes united Miss Ida Brink and Patrick Murphy in wedlock's boly bonds, this morning. The wedding took place in the Common Council Chamber in the presence of a number of guests to whom Captain Veber issued invitations.

The versatile Recorder tied the nuptial knot neatly and deftly and invested the ceremony with all the solemnity befitting the binding together for life of two loving hearts. He bore himself with all the dignity of a Justice A. V. N. Powelson in his favorite role as a tier of nuptial knots and the bride not having orange blossoms on her brow, His Honor embowered the pair in the wreaths of eloquence which dropped from his silver tongue.
"Take off your hat, Ida," began His

Honor. Ida did so and after getting inspiration by gazing for a moment at her Cleo de Melrode coiffure, the Recorder

"I want to assure you both that this ceremony is just as lasting and binding as any performed in churches or grand cathedrals, and should be as happy as any performed in the gorgeous surroundings of wealthier people. I believe that this marriage will be one complete continuation of roses and sunshine."

Ida is only about seventeen years old and she has a three-months old child. Murphy called to see her Wednesday night at her request and a blue-coat lay in wait on Wickham avenue. Murphy, who has been keeping shady since last December, did not suspect any trick. He was quietly nabbed, and he spent the night in the lockup.

This morning they were wed and may they live long and prosper.

### POSTOFFICE DEBATE.

Argument In Senate on Reduction of Carriers.

### CLEVELAND AND HAWAHAN AFFAIRS.

Bryan and Conger Appointments Confirmed-Spirited Discussion In House Begarding Cubs.-The President Makes More Nominations.

WASHINGTON, Jan. 20 .- A spirited debate was precipitated in the senate by the introduction of a resolution by Mr. Hoar of Massachusetts providing for an inquiry by the committee on postoflices and postroads concerning the recent order of the postmaster general reducing the force of letter carriers in several cities of the country. Mr. Hoar declared that the order had had the effect of a dynamite bomb in creating consternation among business men throughout the country, while apparently all that was needed by the postoffice department was an appropriation of \$150 000 fully to maintain the efficiency of the carrier service.

The debate took a wide range, Mr. Wolcott, chairman of the committee on posteffices and postroads, insisting that nany New England people represented by the sent tor from Massachusetts (Mr. Hoar) were responsible for the deficiency in the fundr of the postoffice de-partment, because they insisted that the government should carry second illus mallet an enormous loss, and Mr. Allen of Nebraska charging that the government was annually defrauded an of pullions of dollars through the underweighing of mail matter. The resolution in a modified form is still pending.

Senator Morgan continued his speech in advocacy of the ratification of the Anwaiton annexation treaty in the exgutive session of the senate. He announced at the conclusion of the sessuch that he probably would require one more day in which to complete his presentation of the subject.

Senator Morgan dealt with the questions of the agricultural and commercial possibilities of the islands, with the character of the present government and with the position of the residents of the islands on the subject of annexation. He repeated his assertion that President Cleveland was favorable to the acquisition of the islands and again expressed the opinion that it was his intention to have restored Queen Liliuokalani and to have negotiated with her a treaty & annexation. He believed that Mr. Cleveland would never have taken so positive a position as he did take against the Dole government and in opposition to annexation but for the antagonistic and misleading report of Commissioner

Blount. The senate confirmed these nominations among others: Charles Page Bryan to be minister to Erazil and E. H. Conger of Iowa to be minister to China.

The president sent in the following nominations:

To be Consuls-Oscar Durante of Illinois, at Catania, Italy; Marcus R. Sulzer of Indiana, at Liege. Belgium; Henry M. Hunt of Illinois, at Antigua, West Indies.

Warm Debate Over Cuba.

WASHINGTON, Jan. 20.-All daylong the question of granting belligerent rights to the Cuban insurgents was argued in the house; but, as on the day before, the minority harled itself against a stone wall. On the only vote taken - a motion designed to overrule the decision of the speaker and direct the committee on foreign affairs to report without further delay the Cuban resolution passed by the senate at the last session-the Republicans stood solid and voted to sustain the chair.

The galleries were packed to the doors and there was considerable excitement throughout the early part of the session when the members of the minority were successively pressing all sorts of amendments bearing on the Cuban question on the purpose of embarrassing the ma-During the debate Chairman jority Hitt of the foreign affairs committee made an impressive speech of less than an hour, explaining at length the situation which made action by congress inulvisable. He spoke with impassioned words of the president's sympathy with the struggle for Cuban independence and the achievements of the present ad-

The release of American prisoners in Cuba, the recall of Weyler, the aban-Jonment of the policy of concentration and the autonomy scheme he attributed to the firm attitude of the president and contrasted these results with the inaction of the last administration. He averred that belligerent rights could not aid the insurgent cause, and perhaps the most dramatic portion of his speech came when he declared that the insurgents only wished for belligerent rights in the hope and belief that this country would be embroiled in a war with Spain, which would give them their freedom without triumph. He asserted that the president must assume the responsibility of any action which might eventuate in war and appealed to both sides of the chamber to patriotically support the executive if a crisis shall come.

Mr. Dinsmore of Arkansas, a leading member of the committee on foreign affairs, replied to him, and Messrs. Adams (Rep., Pa.), chairman of the Cuban subcommittee of the same committee: Berry (Dem., Ky.) and Wheeler (Dem., Ky.) also addressed the house during the general debate.

### RAILROAD CONTROL.

President Ripley Replies to Editor of Populist Paper.

### OPPOSES GOVERNMENT OWNERSHIP.

Claims Private Management More Economical-Aiso Urges Political Reasons-Districts Opposed to Party In Power Would Suffer.

CHICAGO, Jan. 20.-President Ripley of the Atchison, Topeka and Santa Fe has written a letter to the editor of a Kansas Populist paper replying to a communication published in that paper citing the number of people killed by the railroads of the United States as a reason why the railroads should be put under government control. Mr. Ripley points out that the railways carry the whole population of the state of Kansas two and a half times over before one passenger is killed; that last year the trains on the railways in Kansas ran over 800,000 miles, yet only one employee's life was sacrificed for every 431,000 miles. Of 4,406 others killed in the United States in 1896, the reports show that 3.811 were trespassers-that is to say, out of every 22 persons killed 19 were killed because they were breaking the law.

Coming to the question of ownership, he says that to himself and other railroad officers it is a matter of entire indifference. Next comes the question whether or not the owners of railroads are opposed to government ownership, and he points out that the strongest plea made in behalf of government ownership is that of T. B. Blackstone, president of the Chicago and Alton, who urged it as a matter of justice to the railway investors. There is no holder of railway securities, according to Mr. Blackstone, who does not believe that those securities would be advanced in value if there was any prospect of the government buying them.

Mr. Ripley says if he is opposed to government ownership it is not as a railway man, but as a citizen. It is easy to talk, he says, of the government giving better service, employing more men, lowering rates and still making

"As a matter of fact," he says, "government management of anything never was, never can be, as economical as private management, and to earn the interest on its investment (\$6,000 000 000 to \$15,000,000 000) the government would have to increase rates for service, as has been done on the government owned lines of Australia; cheapen the service, employ fewer men and let things generally get into disrepair, as done on the government owned lines of Italy, or face an annual deficit and rely on taxation to make up the deficit, as done on the government owned lines in In-

The most serious considerations are. however, Mr. Ripley says, political ones. There are \$50,000 railway employees in the United States. Under government ownership each of these would be a political appointee. This, he says, would not only lower the character of the service, but "would be appalling in the tremendous political supremacy which those 850,000 employees would give to

the party in power."
"Worse still," he continues, "would be the political results of the contracts for the construction of new lines, etc. The scandals and jobbery of river and harbor appropriations or of the tariff legislation would be nothing compared to the field which would be open to the spoilsmen by the railways. The building of new lines would depend en-tirely on political 'pull.' Districts or states of a political complexion opposed to that of the party in power would have to wait till the crack of doom for any new lines, and in districts where the friends of the administration came from there would be lines as thick as stripes on a cat's back."

Express Agent Cruelly Peaten. AMSTERDAM, N. Y., Jan. 20.—A daring robbery was perpetrated here just before 9 o'clock last night. An unknown man entered the office of the American Express company, in the heart of the city, assaulted Agent Benjamin F. Oliver with a heavy iron water pipe, knocking him senseless, and then robbed Oliver of \$600 which he had done up in packages to send away on the 9:17 east bound train. The thief made his escape. Oliver was alone in the building at the time and was found by his son Benjamin lying on the floor. It is feared that his skull is fractured.

Double Murder In New Haven. NEW HAVEN, Jan. 20 .- Edward A. Duff, aged about 40, shot and killed his wife Nellie and his mother-in-law, Mrs. Mary Maher, at their home, 45 Greene street, shortly before 6 o'clock last night. The affair came near being a triple tragedy, as James Reilley, a boarder, was fired at, but the bullet just grazed his neck. The murder was probably the outcome of marital troubles. Mr. and Mrs. Duff had been married for about 14 years, but for the past two years had not lived together. He was arrested.

### The Latin Quarter Noisy.

PARIS, Jan. 20 .- A demonstration, in which 1,000 students took part, occurred last evening before the Pantheon. The students shouted against Zola and the Hebrews. They were driven away by the police, who split them up into noisy groups. The latter then began parading various parts of the Latin quarter, where there was much excitement. A slight anti-Jewish manifestation

took place at Toulouse, and there have been more demonstrations at Marseilles, Nantes and Rouen, where there were several arrests.

### Riot at Luctgert Trial.

CHICAGO, Jan. 20 .- Anxiety to hear the closing proceedings in the trial of Adolph L. Luetgert for the murder of his wife resulted in a free fight in and around Judge Gary's courtroom yesterday, in which the two bailiffs standing guard at the door were badly mauled and several spectators vigorously clubbed. The rush, it is said, was caused by a rumor that Luctgert was to go on the stand.

COLLECTOR'S NOTICE.

### State and County Tax:

directed." - Rev. Francis W. Poole, Notice is hereby given, as required by statute, to the taxable inhabitants of the city of Middle-town, N. Y., that the undersigned Collector of Taxes, in and for said city, has received the warrant for the collection of State and Councy Taxes for the current year, and will attend at the City Clerk's office, Room No. 2, Times Building, corner of King and Center streets, on each working day of the week (Saturday afternoons and holidays excepted), for thirty days from Dec. 17th, 187, until Jan. 22d, 1898, from 9 o'clock in the forenoon until 3 o'clock in the afternoon, for the purnose of receiving payment of said taxes. Pastor Central Presbyterian Church, Miss Allie Hughes, Norfolk, Va., was frightfully burned on the face, and neck. Pain was instantly relieved by DeWitt's Witch Hazel Salve, which healed the injury without leaving a scar. It is the pose of receiving payment of said taxes. E. M. HAMILTON Collector, Dated Middletown, N. Y. Dec. 16(h, 1897, 23dtoJn21

The game is a healthy one and one well adapted to the young ladies of the day. It can be made just as bard exercise as the player desires to make it.

The fact that A. C. N. Thompson has been chosen to teach the club the mysterics of the game has resulted in the casting of many jealous eyes toward thim by other members of the 24th, who zare pastmasters in the game.

The full election law makes it bard for successful canidates for the Common wouncil. This getting elected an alderman in November and being pestered until March by twenty-six canidates for ·city clerk, thirty- two for street com--missioner, and one hundred and ninetyvtwo for policeman, with Howells and Hampton still to be heard from, is too smuch of a good thing. That is the rea--son why it is said recent caucuses have settled at this early date some of the exppointments to be made next March.

A well known botel clerk of this city, "who was formerly engaged as a farmer, states that when the price of milk was Tow he was unable to pay for feeding his -cows the usual fare, as it cost more than the milk brought, hence he considered it economy to feed them on the milk they gave. No commission has been placed on him as yet.

Some time during Wednesday night it began to rain a snow, and after the walks had been covered two inches it began to snow a rain. The natural result was three inches of slush for those who had to go to business. This condition of annoyance has continued all day and the steady fall of rain made pedestrianism a thorough trial. The popular expression of the day has been: "Don't you know enough to go in when it rains?"

York boy, at the secent fly-casting contest in Modis in Square Gurden, made a cast of severely-tour net, six inches. The boy learned to cast at Central Valley, this county, two years ago. The boy's wondered achievement with the rod will be understood when it is known that Seth Green in his prime was never able to cast more chan seventy-four feet under similar conditions and that Reuben Wood who succeeded him as the most expert caster of his time was never able to get a greater rauge than between seventy-three and seventy-five feet.

### WOMEN BUYERS.

They Draw Large Salaries for Patchasing Goods for Lending Stores.

According to the Cincinnati Enquirer a prominent woman drummer says: "There are at least 50 per cent. more women buyers in the trade now than there were six years ago." It is now estimated that there are 900 women buyers in the United States. From the time that women first entered the stores at all, even as saleswomen, their taste and intuition for style, their ability to select, were noticed. The only thing that held them back from the highest position and that holds them back now in some houses was the fear that they could not be relied on to make judicious investments.

A woman buyer who purchases a fine line of goods, for example, ladies' tailormade suits or misses' jackets, receives a salary of from \$6,000 to \$8,000 a year. If she thoroughly understands her business she turns her stock money over two or three times within a year. She buys from \$300,000 to \$500,000 worth of goods per annum. Such a buyer will have been in the business certainly ten years or more and have familiarized herself with every detail. If a woman is uncommonly bright she may learn the business of a "buyer" in three years. But she has to understand her line of custom from A to Z, and know exactly how much she can afford to pay apiece for such goods in order to sell them at a reasonable profit. She must know the wholesale price for the velvet, silk or fur that trims the garment; also, the price of the cloth it is made of, the cost of the making, and the profit to allow the manufacturer.

### BOOTBLACKING IN LONDON,

Improvements to Be Made in Deference to American Visitors.

The force of American demand is being once more exemplified in London by the placing at all important railway stations of chairs in connection with the bootblack brigade. This work, says the London News, is undertaken by the Central Shoeblack society. There is already such accommodation provided at the viaduct station. It appears that the American gentlemen visiting London express surprise that they are expected to stand while they have their boots blacked, as they are accustomed to sit during the operation when at home. The new chair stands will shortly be seen at Ludgate and Charing Cross stations, and at the stock exchange.

The society has 60 boys, who are odged, taught and partially boarded on the premises of the institution, and there is an ingenious allotment of their earnings into three parts after an allowance for food required out of doors, one-third being their own, another third the society's, and the remaning third going to their banking account, on which they can draw for special purposes.

### Health in Every Drop.

No medicine in the world has received so much praise as Dr. David Kennedy's

all over the United States. Words of thankfulness go up from thousands of lips.

Mrs. James E. Beach, of Rosendale, N. Y., says: "About seven years ago I was a sufferer from kidney disease, so sick and helpless I could not walk a step. My physician could do me no good, so I began to use Dr. David Kennedy's Favorite Remedy. From the first dose I could see improvement and it entirely cured me. My husband used it for dyspepsia, with excellent results."

Dr. David Kennedy's Favorite Remedy dissolves the excess of uric acid in the blood, thus curing Rheumatism, Dyspepsia, Kidney, Liver and Urinary troubles. Ills peculiar to women are positively and permanently cured by this marvelous medicine.

The women who are acquainted with the quality of the muslin wear sold here are many. They know that these annual trade events bring them worthy garments at prices unknown at other times. We do not say that all are sold at a loss to us. We make a profit, but that profit comes to us from selling ten garments when otherwise only one would go. The advantage is yours and ours. You buy cheaply, we sell much.
